### All Wagons Available in Red, Green or Black

Designed for work or play, Rolling Delight Wagon beds are made with extra fine hardwood. The 2 1/2" wood sides on the beds are held together with full length 1/4" tie-rod for longer lasting years of service. Heavy-duty 14 gauge steel brackets are used to hold the 1/2" x 1 1/2" side rack post. The plywood bottom on the bed has rounded edges and three coats of varnish for an extra smooth, gloss finish.
